Cirrus Medical Staffing Announces 46% Growth in 2011 Revenue

Cirrus Medical Staffing Reports 46% Increase In Travel Nursing and Allied Revenue over 2010 Financial Performance

Charlotte, NC — Cirrus Medical Staffing (www.cirrusmedicalstaffing.com), an industry leader in travel nursing and allied healthcare staffing, today announced a 46% increase in its 2011 revenue performance over 2010 financials.

“We’re obviously very pleased to report such substantial year-over-year revenue growth for our company” said Randy Holloran, president of Cirrus Medical Staffing. “One of the main factors contributing to our success was that our nursing and allied divisions added a substantial number of new staffing clients during the course of the year. Additionally, as the overall market conditions continued to improve, we experienced a significant increase in demand for nursing and allied personnel across a variety of vertical healthcare sectors. As we begin 2012, I see continued strong revenue growth for Cirrus in both our nursing and allied divisions. We’re well prepared as an organization to handle the rapid growth pattern that we’re entering into and we’re excited to have our travelers and customers participate in this important period in our company history.”
