## Oxygen Software Celebrates 12<sup>th</sup> Anniversary, Offers Customers a 12 Percent Discount

On February 29<sup>th</sup> this year Oxygen Software turns 12. To celebrate its anniversary and share its joy, the company welcomes everyone to receive a 12 per cent discount on all its products. The coupon code "OXYGEN12" will bump 12 per cent off the regular price of any Oxygen product, including all editions of Oxygen Forensic Suite 2012. There are no restrictions and no strings attached. Offering anniversary discounts has become a long-term tradition with Oxygen.

### Terms and Conditions

Oxygen Software grants all customers a 12 per cent discount towards the purchase of any current product sold by the company, including all editions of Oxygen Forensic Suite 2012. The discount is available in the form of a coupon code. To claim the discount, customers need to enter the coupon code "OXYGEN12" during the checkout. The coupon has no cash value and cannot be sold or exchanged. This special offer cannot be combined with any other offer, coupon or discount. The coupon code is valid on February 29<sup>th</sup> in all time zones. This is a "no strings attached" offer; the use of this discount coupon does not affect customers' right to upgrade, the right to use Oxygen Customer Support, future maintenance or upgrade prices in any way.

### About Oxygen Forensic Suite 2012

Oxygen Forensic Suite 2012 helps investigators and forensic specialists access and analyze data from a variety of mobile devices such as cell phones, smartphones, communicators, PDA and tablet PCs. Currently supporting more than 3,500 different models, Oxygen Forensic Suite 2012 covers the widest range of mobile devices compared to competition, and allows fully automated acquisition and analysis of supported devices.

The unique Timeline feature offers convenient, single-place access to all activities and movements performed by the user arranged by date and time. Investigators can track user location at every moment, build and map their historic routes, and clearly see all activities performed by the user at each location.

Another signature feature of Oxygen Forensic Suite allows investigators performing a global search on all devices ever analyzed with the toolkit. The global search quickly reveals any connections (e.g. common contacts, exchanged calls, texts or emails) between the phone owners.

Oxygen's statistical analysis tools allow investigators discover social connections between the users of multiple mobile devices. Calls, text messages and Skype conversations are analyzed to produce charts and tables revealing the users' closest circle at a glance.

Oxygen Forensic Suite 2012 guarantees zero-footprint operation, leaving no traces and making no modifications to the content of the devices, making it the tool of choice among government and law enforcement agencies, security services and forensic organizations in more than fifty countries.

### About Oxygen Software

Founded in 2000, Oxygen Software offers the most advanced forensic data examination tools for smartphones and mobile devices. The company is dedicated in delivering the most universal forensic solution covering the widest range of mobile devices running Symbian, Windows Mobile, Blackberry, iOS, and Android operating systems. As a result, Oxygen Forensic Suite receives great response at forensic conferences, exhibitions and trainings, and occupies a spot in the top of the list in relevant tests for extracting more data than competition.
