

# The Interactive Shoulder Algorithm

## Continuing Education E-Learning Software

- **Master Twenty-Nine Tests** for evaluation of the Shoulder Complex, Step-by-Step.
- **Buy one CD** for the clinic and groups of therapists can receive CE credit.\*
- Take the **CEU test online, Earn Continuing Education Credits** and instantly print course certificate.\*\*
- Use the CDROM as a **reference tool on your personal computer.**
- **Free Online Access** to course material for 45 days with CD and CEU purchase.

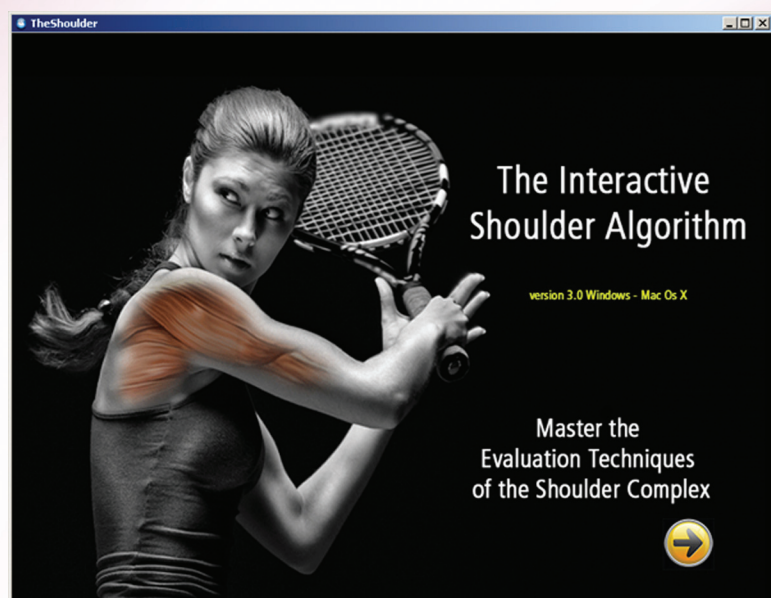

### This new technology is a powerful learning tool

An exciting learning tool for individual therapists or teams of therapists seeking to effectively evaluate the shoulder complex for orthopedic dysfunction. It provides therapists with a step by step process to effectively evaluate the shoulder complex for orthopedic dysfunction. Therapists will significantly increase the efficiency of their examinations by mastering the information in this teaching tool. Effective rehabilitation programs can be developed by the clinician through a greater understanding of the testing sequence and the anatomical implications of the tests. Experienced clinicians can utilize this software to obtain a master level understanding of the shoulder testing procedures. Each test segment detailed in the software covers critical pathways, position of the patient, position of the clinician, position of the clinician's hand, direction of movement, tissues implicated, indications of a positive test, and amount of force to be applied.

Requires Windows® XP, Vista, 7 or MAC OS X. CD Drive.  
Online access requires an internet connection.

Scan with your smart phone for more info

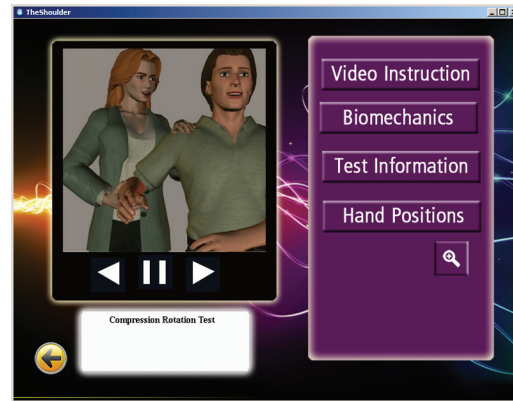

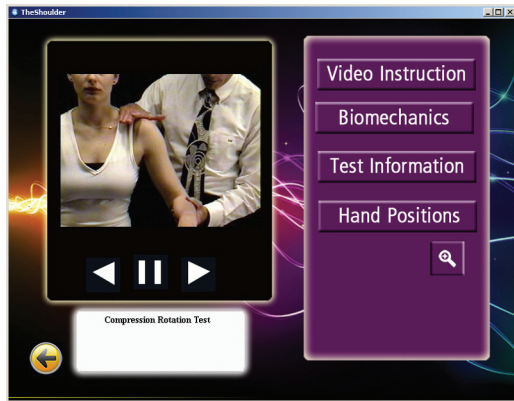

\*requires the purchase of multiple tests \*\*requires test purchase and passing test score

Instructor narration of the digital videos explains the fine details of each test. Each digital video can be paused and played by the user allowing control over the pace of their learning.

Gain an accurate understanding of starting hand placement. Hand position is a critical aspect of proper performance of the tests. Each image has zoom-in capability.

Explore the anatomy of the shoulder complex. Images of the posterior and anterior view of the shoulder are shown with each area of the shoulder anatomically labeled. This section includes a 3D shoulder that the user can rotate. Includes muscles of the shoulder.

A re-creation of the biomechanics of the shoulder joint for each test. This analysis will provide a greater understanding of the force and direction of motion of the joint. Each movie can be controlled by the user.

### Software Licenses

Software with one CEU test submission **\$204.95**  
Software, without CEU test **\$129.95**  
Additional CEU test **\$75.00**

### Group Purchase

5 tests & one software (CDROM) **\$504.95**

Call for pricing for groups greater than 5 therapists

add \$15 shipping

**Purchase Online at www.healthclick.com** - Online purchase of software and CEU test includes: A CD shipped to you, 45 days online access to course material, CEU test and a course certificate (req. passing grade).

### State Approvals for 2012

|                      |   |                    |
|----------------------|---|--------------------|
| California           | Physical Therapy Board Approved - PTNAS-201481        | 10.5 hrs, 1.05 CEU |
