

Ferguson Barristers LLP encourages you to follow these safety tips as outlined by Transport Canada, whenever you hit the snowmobile trails:

- Inform others of your destination and arrival time
- Inspect your snowmobile for mechanical integrity
- Wear appropriate clothing for the weather conditions to prevent yourself from getting hypothermia
- When riding, stay on the right side of the trail
- Stay within your riding capabilities
- At night, reduce your speed - your headlight limits how far you can see
- When riding over lakes and rivers be aware of ice conditions; always check with local authorities regarding conditions. If riding over water, always wear flotation clothing
- Never operate a snowmobile if you are impaired by alcohol or drugs
- Snowmobilers are encouraged to belong to a recognized Snowmobile Club
