

3rdKind delivers the popular App “Nano Panda” to the KDDi unlimited App service the “au Smart pass”.

(Tokyo, Japan, March 1st, 2012) - The company 3rdKind Inc., through its Representative Director, Taro Hosotani, President/CEO, and Frederic Nouel, President/COO, announce that from March 1st, 3rdKind Inc. will provide through the “au Smart Pass” service, European and American Android Apps to the Japanese carrier KDDi. The first title to benefit from it is Nano Panda.

Nano Panda is a puzzle game for smartphone, produced and developed by the creative team at UNIT9. The game features hours of gameplay enjoyable through 64 levels. Each level can be cleared in many different ways, but only one will get you the perfect score!

3rdKind Inc. “cultured” this title and is proud to introduce it to the Android Japanese market.

KDDI and Okinawa Cellular started providing the “au Smart Pass” service on March 1st. This service is designed to enhance the smartphone experience for users, providing a new platform to enjoy smartphones safely and conveniently.

In addition to providing unlimited download access to over 500 popular apps, “au Smart Pass” will feature discount coupons, a point service, 10 GB of storage for photos and videos, and enhanced security and support for just 390 yen per month (tax included).

« Nano Panda » is a puzzle game for everyone. As a KDDi customer, you can download it from the “au Smart Pass”, and enjoy the game at no additional charge.
