PALADION RECEIVES GLOBAL EXCELLENCE AWARD FOR PHISHING INTELLIGENCE REPORT

2011

BENGALURU, March 5, 2012: Paladion announced today that Info Security Products Guide, the industry's leading information security research and advisory guide, has named Phishing Intelligence Report - H1 2011, a winner of the 2012 Global Excellence Awards in Best Whitepapers, Technology Write-Ups and IT Blogs category. The security industry celebrated its 8th Annual 2012 Global Excellence Awards in San Francisco by honouring excellence in every facet of the industry including products, people behind the successes and best companies.

More than 50 judges from a broad spectrum of industry voices from around the world participated and their average scores determined the 2012 Global Excellence Awards Finalists and Winners. Winners were announced during the awards dinner and presentation on February 29, 2012 in San Francisco attended by the finalists, judges and industry peers.

This report on phishing is a reflection of current trends as seen through the eyes of Paladion Security Operations Center (SOC) for the region. The document provides an insight to all phishing attacks that were detected and responded to by Paladion SOC from different perspectives – the current trends in launching attacks, user's response to phishing baits and what Banks can do to minimize phishing related frauds. Paladion's Phishing Intelligence-H1 2011 report was selected as the winner based on the quality of data, clarity of analysis and innovative presentation. It competed with other five finalists shortlisted from over 200 entries including, NCP engineering, Inc. for Debunking the Myths of SSL VPN Security, NETGEAR, Inc. for The Dirty Secret Behind the UTM, Radware for Radware Security Incidents Report, 1H2011 Special Focus: Multi-Layer Attack Threats, Solutionary for Endpoint Security and the iPad, Solutionary for The Advanced Persistent Threat.

Commenting on the occasion, Vinod Vasudevan, CTO, Paladion Networks said, “Info Security Products Guide’s recognition of our Phishing Intelligence Report further validates the innovation in our anti-phishing services and the experience that supports it.”
