

BarterQue

BarterQue – microbusiness bartering made simple

About

BarterQue is changing the local bartering community for freelancers and micro businesses. It makes bartering a simple task by removing the often-awkward process of finding others who are barter-ready, stimulating the bartering economy. Now businesses can instantly connect to others who are willing to trade skills instead of capital.

Josh Watters, Larry Scott, and Dwight Scott formed BarterQue Inc. during Startup Weekend Columbus 2012. Their background as freelancers and small business owners fueled the inspiration behind BarterQue.

Features

- Instantly connect to local, barter-ready freelancers/businesses
- Simple profile – just input company information and barterables
- Search for specific services or let BarterQue find your matches
- Messaging allows for barter proposal, terms, rates, etc.
- User review and rating system
- Desktop and mobile compatible, no app necessary

Team
