

Sunrise Capital Partners Lists Funds on AlphaMetrix Global Marketplace

SAN DIEGO, California, March 13, 2012 – Sunrise Capital Partners, one of the world's leading systematic global macro trading firms, announced today that its Expanded Diversified Strategy and Aggressive Diversified Strategy will be listed in the AlphaMetrix Global Marketplace (AGM).

"Since our inception in 1980, Sunrise has aimed to provide clients with compelling, low correlation returns while delivering the utmost in investment transparency," said Jason Gerlach, Managing Director. "AlphaMetrix provides investors with world-class due-diligence and verification, industry-leading technology, and a robust information database. By partnering with AlphaMetrix, Sunrise takes its three-decade commitment to transparency to the next level," said Gerlach.

The Sunrise Expanded Diversified Strategy will be visible on the AlphaMetrix Global Marketplace, providing access to the Sunrise Davco fund or an identically-traded offshore counterpart. The Aggressive Diversified fund will be visible on AGM in coming weeks through both onshore and offshore fund offerings.

"The alternative investment industry has changed dramatically in the post-2008 environment," noted Gerlach. "Clients and prospective investors demand and deserve a deeper understanding of Sunrise's investment process, portfolio holdings, and risk-management protocols. Through our new, multi-faceted partnership with AlphaMetrix, we are positioned to not only meet, but to exceed the transparency requirements of modern investors and give them comfort regarding their Sunrise investment."

"We are excited to welcome Sunrise Capital Partners to AlphaMetrix," said Mikus Kins, Chief Product and Business Development Officer at AlphaMetrix. "Their commitment to transparency and to serving their clients makes them an excellent addition to AGM."

ABOUT SUNRISE — Sunrise Capital Partners LLC manages global macro investment strategies for institutional and individual investors. A leader in systematic macro trading since 1980, the firm brings an informed, long-term perspective, an adaptive and evolutionary research platform and responsive, client-focused delivery to investors seeking the best opportunities in today's global financial markets. Sunrise, a finalist nominee for *Absolute Return* +Alpha magazine's Managed Futures Manager of the Year in both 2009 and 2011, holds one of the longest and most profitable trading records in the alternative investment industry and offers investors the liquidity, transparency, and stringent regulatory and business controls critical to investing in the post-2008 environment.

About ALPHAMETRIX — **AlphaMetrix** is the founder and operator of the AlphaMetrix Global Marketplace, the world's leading secure online marketplace for researching, tracking and analyzing information about hedge fund managers, CTAs, and private equity funds. Through the Marketplace, the firm services more than \$6.9 billion in assets* and provides extensive due diligence, real-time transparency and 24-hour risk monitoring. The AlphaMetrix Global Marketplace connects more than 68,000 industry participants online and has a growing membership of 36,000 pre-qualified investors.

Past performance results are not necessarily indicative of future results. An investment with Sunrise is speculative, involves a substantial risk of loss, and is not suitable for all investors. Any person subscribing for an investment with Sunrise must be able to bear the risks set forth in Sunrise's offering materials.

*As of January 2012. The value for "assets under management" currently includes assets from managed accounts, pooled managed funds, transparent funds and assets under administration by AlphaMetrix and its affiliates. This value may change at any time and without notice. Alternative investment products, including hedge funds and managed futures, involve a high degree of risk. Alternative investment products can be volatile. An investor could lose all or a substantial amount of his or her investment. Alternative investment products often execute a substantial portion of their trades on non-U.S. exchanges. Investing in non-U.S. markets may entail risks that differ from those associated with investments in U.S. markets.
