## Make Pro Staff your business fitness partner

**Run lean.** Trimming costs by holding your permanent staff levels low is how you roll. But, you want to be ready to go when a big customer order comes in or an important short-term project gets the green light. That's when you need Pro Staff. We've built our reputation on providing the high quality people and service you'll need to get moving.

**Maintain focus.** Our team takes on the distractions of recruiting, screening, testing, hiring and payroll processing for the contingent staff you need, so you can keep your eyes on the goal ahead.

**Trust your partner.** Pro Staff offers a fitness guarantee. If someone we place in a temporary assignment doesn't meet your expectations, you won't be charged for that person's time. Working with Pro Staff means complete confidence and zero risk.

**Make success a habit.** When you're matched with the right partner, staying fit gets easier. Team up with Pro Staff for the long run and you'll operate at your peak without breaking a sweat.

**Get going today. Contact Pro Staff!**
