MAGIX Video Pro X4 – The look and sound of perfect Video editing at its best

This multi-award-winning video editing suite, MAGIX Video Pro X4 is geared towards the unique requirements of professional users, offers an unrivaled range of powerful post-production tools.

Improved performance, detailed editing options and years of experience in the field of advanced software development guarantee professional results in perfect sound and vision and an efficient workflow that combines professional video editing with ease of use.

Highlights

- ▶ **Open Timeline:** Multi-format arrangements with all current SD and HD formats
- ▶ **Compatibility with all current video formats:** DV, AVCHD, HDV, H.264, XDCAM, DVCPRO50/HD* and AVC-Intra* (and more)
- ▶ **Stereo 3D video editing:** Native stereo 3D support of all camcorders or personal stereo 3D set-ups
- ▶ **Efficient 3 and 4 point editing:** Automatic cut point calculation and precise video sequence insertion
- ▶ **MultiCam editing:** Perfectly synchronize recordings and edit them live on up to 9 tracks in real-time
- ▶ **Dolby® Digital 5.1 surround sound:** Create real multichannel sound with Dolby® Digital 5.1 Creator and mix it live with the audio mixer.
- ▶ **Sample-precise audio editing:** Edit and move audio objects with a precision of up to 1/48000s.
- ▶ **Integrated disc authoring module:** Create DVDs, AVCHD and Blu-ray discs with animated menus and multichannel sound
- ▶ **Export MPEG-2 I-Frame only:** Export broadcast-quality material in Intra-Frame

Xara Designer Pro 7

Graphics and illustration, page layout, web design and photo work – created to the highest standards

Xara Designer Pro 7 is the world's fastest and most versatile all-round design solution that is geared towards the unique requirements of ambitious and professional users. The multiple award-winning software seamlessly combines all design-relevant functional areas into one clearly laid-out program interface for an optimal workflow. You create everything in a single, clearly laid-out program window: from a first quick layout draft for business cards and convenient text and image editing for complex brochures to ready-to-use print templates.

Highlights

- ▶ Can be used intuitively by anyone, **no programming skills required**
- ▶ Comprehensive, **non-destructive image and photo editing as** well as over 50 live effects
- ▶ **Integrated text layout & typography**
- ▶ Easy **3D design & Flash® animation** creation
- ▶ Design and export complete **HTML websites** (WhatYouSeelsWhatYouGet)
- ▶ Includes an extensive selection of high-quality, individually customizable design templates as well as 3000 license-free clip art items for many areas such as school, university, or job.
- ▶ Universal desktop publishing (DTP) for cost-effective self printing or reproduction in any professional printing shop. Full file support for all standard formats and industry standards as well as PANTONE® and CMYK color separations.
- ▶ Completely object-oriented, vector-based & selective image editing technology that enables flexible image manipulation of individual image elements, multiple photos simultaneously and any graphic or text element.
- ▶ Support for over 130 new raw formats (RAW) of current camera models (400 in total)

Samplitude Music Studio MX Academic Edition

Everything you need for music production

Samplitude Music Studio MX Academic Edition is the professional complete solution for simply perfect recordings! It is perfect for musicians as well as other areas in which uncompromising sound quality is key (e.g. radio, post-production of movie soundtracks etc.) The program offers the widest range of function and goal-oriented handling - from recording and editing to mixdown and editing and through mastering and burning in Red Book format, the official standard of record labels and printers. The 10 Vita instruments offer ultra-realistic simulations of real instruments.

Highlights

- ▶ Attractive price-to-value ratio: a comprehensive complete package with features rarely included in this price class (mastering, 5.1 Surround[®] mixing, analog compressor, tools for vocals correction)
- ▶ Step-by-step mode: the software leads the user through all relevant steps of music production (recording, editing, mixdown, mastering, burning) – incl. tutorial videos for each step.
- ▶ 100% sound neutrality & fidelity
- ▶ Web 2.0 ready: share your own songs on social networks such as Facebook, YouTube, Twitter and on blogs.
- ▶ Customizable user interface
- ▶ The Academic Edition includes 10 Vita instruments
