

PROMOTE SUSTAINABILITY

To show our commitment to sustainability and the marine environment, all of our fish are caught by small community-based fishermen in day boats using hand-line fishing techniques. It is these techniques that have been handed down from generation to generation that limits by-catch and avoids harm to the marine habitat. At Handy, we responsibly source only fish that are listed as a “good alternative” under the Monterey Bay Aquarium’s Seafood Watch Program.

Handy offers full traceability of all its Artisanal Fish items
