

## **ABOUT US.....**

Thank you for visiting [NatureVaper.com](http://NatureVaper.com)

We are a family owned and operated small business. Our mission is to provide quality products and prompt delivery to customers at fair prices. Our owners have extensive business experience and understand the importance of business ethics in creating and growing a successful enterprise.

Although NatureVaper is a new Company, our operating officer has been involved in the electronic cigarette industry for several years. While the industry is also relatively new we believe it provides an opportunity for a healthier and more environmentally sensitive alternative for individuals who may choose to use tobacco-based cigarettes. We believe electronic cigarettes allow users to enjoy the satisfaction of the smoking experience while reducing likely contaminants associated with regular tobacco cigarettes.

Our products have been selected from numerous items which were subjected to staff or outside analysis and testing. We believe that our products are the best electronic cigarettes and accessories available on the market.

We welcome feedback and suggestions from visitors to our web-site that may help us improve our business model.
