Description

News apps may be a dime a dozen – but an app from the only news media organization inside the U.S. Department of Defense that enjoys First Amendment privileges is a different story. Other DoD media report only what the government says – only Stars and Stripes reports on military issues and events from an independent perspective, relying on multiple sources, not just the command's point of view.

Stars and Stripes' Illustrious History

Reporting continuously from Europe since 1942, Stars and Stripes has covered every major conflict since World War II. Stripes reporters have served alongside American soldiers, Marines, sailors and airmen in Korea, Vietnam, the first Gulf War, Bosnia and Kosovo. They embedded with military units and on Navy ships to cover the war in Iraq and still report from Afghanistan.

Stars and Stripes reports from a "boots on the ground" perspective in over a dozen countries, from Europe to southwest Asia to the Far East.

Stars and Stripes iPhone App

Get instant access to the U.S. military news and information that matters the most, brought to you by Stars and Stripes. If you have an interest in overseas military action, the people who serve, and what leadership is planning and saying, this app is definitely for you.

Get important and breaking news on everything from U.S. military successes and setbacks to defense spending cuts, troop withdrawals, veterans' issues and even the latest DoDEA sports. Stars and Stripes covers the U.S. military like no other news organization. Get the "military beat" from the service members' viewpoint and from a trusted source: Stars and Stripes, the U.S. military news you need, when you want it, from all over the world.

Features:
