

## **Building a Safe Home Becomes Affordable With the Launch of Basic [Home Security Systems](#) Plan from Elite Security Services.**

Elite Security Services is creating a strong impact on the [home security systems](#) industry in Canada and America since the introduction of their basic package. The package, with a monthly rental of only \$35.99, has received excellent response in the market. This low cost package conforms to all the latest security standards in the industry.

The home owners in the United States and Canada no longer need to spend a fortune to enjoy the benefits of efficient [home security systems](#). The recent introduction of the affordable basic security plan from Elite Security Services has taken the home protection market by storm. This package provides all the benefits of an advanced wireless security system for a monthly rental of only \$35.99. The package has received unprecedented success in the market within a few months of its launch and is presently one of the most sold packages from any security company. It may be recalled that the company offers two more popular security packages that are priced slightly higher than the basic package.

[Home security systems](#) are no longer a luxury for the houses because of the increased crime rate in most of the areas in Canada and America. However, sophisticated security packages are often beyond a common man's means. Elite Security Services have done well to completely change the trend in the market with their basic security plan. It needs to be mentioned here that the Arizona based company is an ADT authorized dealer of home protection systems. The basic package from the company is capable of transmission of signals to ADT monitoring stations using the basic telephone line. This package comprises of tons of sophisticated security devices like sensors, burglar alarms, motion detectors, digital keypad, remote control, and much more.

This excellent [home security systems](#) package is the brain child of the renowned domestic protection expert, and the owner cum founder of the company Paul Shakuri. He thanked the house owners in Canada and America for their support saying, "We wanted to create a package that can be afforded by the mass. I thank all our customers for showing their trust on us, and promise better service for all of you in the coming days".

About the Company: Elite Security Services is a rapidly growing company in the home security industry. They offer highly efficient and economical home security solutions in America and Canada.
