Central Consulting Group Receives Prestigious Deltek Innovation Excellence Award

Software firm also selected as a Deltek Premier Partner for 2012

Minneapolis, MN — March 27, 2012 — Central Consulting Group (CCG) was named the winner of Deltek's 2012 Innovation Excellence Award, in addition to being named a Deltek Premier Partner for 2012.

The Innovation Award recognizes CCG's suite of software products that augment Deltek Vision®, a project-based Enterprise Resource Planning solution. CCG's products allow Deltek Vision users to streamline client and vendor invoicing processes, among other benefits.

The Deltek Premier Partner program, now in its eighth year, attracts and recognizes top-performing business partners. Deltek Premier Partners are chosen based on their excellence in specific business criteria, including representing, implementing and supporting Deltek solutions. CCG is one of the few Premier Partners to also provide add-on software products that boost the functionality of Deltek software.

"We are honored to retain our Deltek Premier Partner status for 2012, marking our eighth year as a Premier Partner," said Jim Falkanger, Managing Partner of CCG. "Even more rewarding is to receive Deltek's Innovation Excellence Award. CCG is devoted to helping Deltek Vision clients achieve more with their software. To be recognized for our ingenuity in creating add-on products reaffirms our dedication to client service," he said.

More than 1,000 Deltek customers leverage products and services from CCG, making the firm one of the largest Deltek partners in the world.

"We are excited to recognize our Premier Partners for 2012," said Kevin Parker, President and CEO of Deltek. "As a core component of our go-to-market strategy, Deltek relies on its strategic business partners to extend our presence in the marketplace."
