

# TOUGHTRACK PRO

## GPS Vehicle Tracking System

**ToughTrack PRO is a complete vehicle tracking and communications system,** uniquely designed for managing vehicles that may sit idle for extended time periods. It's the ideal solution for tracking and recovery of Cars, Trucks, ATVs, Watercraft, Motorcycles, Trailers and Heavy Equipment.

Built with super-sensitive GPS technology and durable water-resistant & dust proof casing, the ToughTrack PRO can operate in virtually any environment! With geo-fence boundary crossing alerts, 3D motion sensing, a tamper alert system with internal back-up battery - **you're always tracking with ToughTrack PRO!**

## TOUGHTRACK PRO

### Features

- Real-time vehicle tracking
- Rugged, weather-resistant
- Battery tamper alert
- Back-up battery for continuous tracking
- 3D motion sensor alert
- Built-in cellular and GPS antenna
- 2 Outputs/1 Input
- Superior GPS & cellular quality
- Tracking down to 10 second intervals
- GSM/GPRS cellular networks

**To Order Call (480) 661-1916**

### Specifications

Operating Voltage 6-32 VDC  
Internal 3.8 Ah lithium Ion battery pack  
Dimensions 4.3" x 3.2" x 1.6"  
Quad Band 850/900/1800/1900 MHz  
GPS & Cellular Status LEDs  
2 Outputs/1 Input + ignition  
Operates with 12 and 24 Volt Systems

### Mapping

Address Reports  
Satellite Mapping  
Stop Reports  
SMS & Email Alert System  
Geo-Fence Alerts  
No Software to Install  
Worldwide Coverage Available

Secure GPS Tracking on any PC or PDA-Style Cell Phone
