

In Case of Crisis

Emergency preparedness
for a **smartphone generation**

About In Case of Crisis

In Case of Crisis is an easy and affordable web-based solution and mobile app that will take your crisis or emergency plan to the mobile world resulting in improved crisis communications for your organization.

Why In Case of Crisis?

Most people don't keep paper copies of their emergency plans on them, but they keep a Smartphone or mobile device. With In Case of Crisis you can keep your crisis plan on a Smartphone or mobile device and make sure that wherever you go, your crisis plan goes too!

In Case of Crisis helps protect employees and prevent and reduce liability for your organization by adding additional communication channels to your emergency preparedness efforts.
