

ABOUT DIGISCRIBE NEW ENGLAND

Digiscribe New England implements cost-effective document scanning services and document management solutions that help companies, non-profits and medical offices reduce costs, operate more efficiently, and go green.

Companies rely on Digiscribe New England to achieve superior efficiencies and reduced costs in paper intensive processes including accounts payable, human resources and customer service. Services can be outsourced to Digiscribe New England's Kodak Certified processing facility, located just outside of Boston, or implemented on-site.

Digiscribe's expertise is in document scanning services, e-forms, online document management, in-house document management systems, mailroom services, workflow automation, full-text OCR services, e-mail management, document indexing, document imaging software and box & media storage.
