Norwood, Massachusetts – March 29th, 2012 – Digiscribe New England Offers Large Format Document Scanning Services to the New England Area

[Digiscribe New England](#), a leading document management service provider, is expanding its services in the New England area to include [large format document scanning](#).

Digiscribe New England is responding to the growing needs of businesses, architects and engineers to store, access and share oversize documents electronically. Large format documents such as architectural renderings, engineering drawings and topographic maps require a large amount of costly storage space, are difficult to share among multiple parties and are cumbersome to handle.

"Our expertise in providing cost-efficient, high-quality [document scanning services](#) and [document management solutions](#) will help companies better manage their large format documents. By digitizing oversize documents, companies will realize space cost savings, quicker and easier access to critical drawings and a more streamlined and seamless way to share their documents," said Tom Zelif, VP of Sales.

About Digiscribe New England
