

## **Kaba Traveling Road Show Offers Customers Hands-on Demonstration**

*See the latest technology from Key Systems and Access Control at a location near you.*

**Winston-Salem, NC (PRweb) March 30, 2012**, A new Kaba Road Show is touring the country in 2012 showcasing the latest products from ILCO Key Systems and Kaba Access Control.

Kaba Ilco Corp (Ilco) will have a variety of key machines for a hands-on experience. There will be automotive cloning and programming equipment for you to “test drive” plus key blanks, replacement cylinders, storefront hardware and exit devices on display.

The Kaba Access Control display will demonstrate how the E-Plex Wireless System can remotely manage locks from a central location, globally lockdown the entire system or specific locations, and much more. “The E-Plex Wireless Access Control System is designed to be flexible, scalable, and easy to install,” stated Mark Allen, *Marketing Manager*. “It provides real-time functionality, but eliminates the hassle of running wire throughout a facility. Wireless is also renovation-friendly down the road as there are no wires to add or relocate.”

The Kaba Traveling Road Show, along with company representatives, will travel across the US and Canada in the next 12 months. The scheduled stops include distributor trade shows and end-user facilities. Contact your local Kaba representative or distributor to find out when the van will be in your area. If you are on twitter, follow #GoKaba or @kabaaccess for the latest Kaba Traveling Road Show updates.
