

March 31st, 2012 - 8:30pm

Join Ciralight and Turn OFF Your Lights for One Hour!
Bring Awareness to Climate Change and Earth's Need for Sustainable Energy

5,200+ Cities / 135+ Countries / 100,000,000+ People

Started in Sydney, Australia, in 2006, Earth Hour has become the largest environmental event in history and is expected to reach greater heights in 2012. People on every continent (even on the International Space Station) will be supporting to spread the message of global climate change. Last year saw people taking action and going "Beyond the Hour," committing to lasting action on climate change.

Join **Ciralight Global** in Supporting this Worldwide Cause March 31st @ 8:30pm.
Ciralight SunTrackers allow users to turn off electric lighting up to 10.5 hours a day, EVERY DAY!
