

Iris Data Services Hires New Account Executive in San Francisco Leading Electronic Discovery Company Adds John Ryan to West Coast Sales Force

SAN FRANCISCO, April 2, 2012 — Iris Data Services, a leading provider of discovery solutions, announced today that it has hired John Ryan as an Account Executive. Ryan will office in the Iris production facility in San Francisco at 225 Bush Street, Suite 340, San Francisco, California, 94104, 415-671-8965. This is a full service litigation support office that offers complete paper imaging and copying as well as electronic discovery processing and computer forensics. Iris Data Services is a leading supplier of discovery solutions including electronic discovery, computer forensics, attorney document review, and online hosting.

“Iris is a leader in electronic discovery and litigation services,” said Ryan. “Their new production office in San Francisco has strengthened Iris’ presence in California and I am excited about joining their team.” In his role as Account Executive, Ryan will lead sales of Iris’ suite of eDiscovery services throughout California including Los Angeles and San Diego.

“Ryan comes to us at a significant time in our growth,” said Damon Goduto, Iris’ Vice President of Sales. “We are involved in more and more complex litigation, particularly with west coast law firms and corporate legal departments, and his expertise in eDiscovery technologies will help Iris serve this growing region of our business.”

About John Ryan

John Ryan has been assisting the legal community since 1996. During his tenure, Ryan has utilized a “best of breed” approach to reduce the overall costs of his clients’ internal investigations, corporate governance, and discovery needs. Ryan provides consultation services on various litigation support issues and is considered an expert in complex litigation, data management and electronic evidence handling and processing. Ryan has been published in a nationally-recognized legal magazine and teaches several CLE courses on electronic discovery best practices and cost and risk management.
