The BIG NEWS this year is [Larry Benz's](#) new [business track](#) that we've added to the first day. This breakout portion will consist of lectures and discussions about private practice management using case studies and real world examples to show owners and managers what works and what doesn't. A forum setting and concluding happy hour will allow for brainstorming and interaction among the best private practice PTs from all over.

If you can't attend the entire event you can register for Saturday morning's lectures (more details on this coming soon at [Manipalooza.com](#)). A portion of the registration price for the Saturday morning session will benefit [PTHelpForHaiti.org](#).
