

Avoid costly returns and ensure that your product remains on the store shelf.

The QuikDot Pro is a pressure sensitive adhesive applicator designed to seamlessly seal corrugated food and beverage packaging. The QuikDot Pro is a convenient alternative to cumbersome tape pads and hot melt glue guns. Designed for time savings and ease of use, the QuikDot Pro refillable design fits easily into the palm of the hand.

QuikDot™ PRO

Rugged, lightweight and portable, The QuikDot Pro instantly applies the right amount of adhesives, every time. The QuikDot Pro's high impact poly-carbonate body handles everyday use. The pocket-sized, refillable design gives you a new level of flexibility and convenience.

QDP-7100 Adhesive

Engineered specifically for corrugated food and beverage packaging repair, the QDP-7100 adhesive pattern delivers an instant, permanent bond. The adhesive shape and pattern spacing are engineered to provide optimal coverage while eliminating waste. The invisible bond protects brand integrity with a dependable seal that is virtually invisible to consumers.

Product Highlights:

- Invisible Bond Protects Brand Integrity
- Clean, Instant, Secure Bond
- Refillable Design
- Rugged Construction
- FDA Approved for indirect food contact
