Energy Management Systems
301 NE 51st St, Ste 1240
Boca Raton, FL 33431

To whom it may concern,

I am the managing partner of Chaar, a retailer in Allentown, Pennsylvania. Our electric bills tend to run high, especially in the hot summer months when both our AC use and overall usage, due to increased store hours, causes our electricity bill to spike.

The EnergyMizer from Energy Management Systems has helped us see significant savings since the installation, resulting in noticeable lower electricity bills. The economics make sense. I would highly recommend the EnergyMizer to any business, as the savings are real and the company is a pleasure to do business with.

To EMS – thanks for your excellent product and continued service!

Yours Truly,

Tony ElChaar
Managing Partner
CHAAR
