## How to upload photos on Facebook without going BERSERK.

Recently launched Facebook APP, allows users to **upload up to 1000 high resolution images with 1 click of the mouse**. Users can upload their entire photo collection with virtually no effort.

This **100% free** Desktop Software Application, allows users to select their images, press the upload button and let the software work, in a fraction of the time.

**Also allows users to Download photos directly from their Facebook Profile.**

It's simple interface, and user friendly layout makes it a popular alternative.
