*Kitchen Design, Flooring, Lighting, Landscaping, Renovation Services, More

*Fabulous Brands, Vintage Finds, Architectural accents, Custom Upholstery

Innovative Showroom

“Our vision was make shopping for home furnishings a multi-sensory adventure, not a chore,” says Dan Lubner. “We call it ‘furniture with benefits.’ For example, while one partner is still measuring sofas or becomes engrossed in high tech talk with the smart home automation gurus, the other can sip a glass of wine or a cup of espresso, or check out ideas for garden fountains, fire pits and outdoor pizza ovens.”

Under One Roof

With its hand-selected team of award-winning interior designers, [Clive Daniel Home](#) is among the first in the U.S. to offer the full range of shopping experiences from the acquisition of a beautiful accessory, to renovation of an historic home, to complete design/build from the ground up, from the mailbox to the twinkle lights in the palm trees.

The company has its own in-house licensed general contractor as well as a landscape architect, custom flooring and upholstery fabricators, a framing gallery, interior and exterior lighting, kitchen, bath and closet design showcases.

Eclectic, Eco-friendly, Human Scale

One of our most exciting accomplishments has been the introduction of re-purposed and ecologically friendly materials, reclaimed architectural accents, and faithful reproductions of natural old-world antiques at a fraction of the cost of the originals,” Daniel says.

“While we do carry fantastic grand-scale pieces, including massive stained and leaded glass windows and doors salvaged from historic buildings in New Orleans, Baton Rouge, and New York,” Clive says, “we see the future of home décor moving toward human-scaled furniture and more intimate living environments. People today want to their home to reflect more of who they are, with more eclectic mixing and matching, and fewer ‘sets.’ They still expect great quality but at prices respectful of today's economic environment.”

Renovation Trends

“We’re also responding to the changes in the homebuilding and buying markets,” Clive says. “While many new residents are coming into the region and building new homes, a growing percentage are acquiring and renovating existing homes. Many of our customers are choosing not to move up, but to stay put and achieve their dreams by upgrading and refreshing their current homes.

“Our licensed general contractor and a full complement of carpenters, masons, electricians and other professionals meet the demand for complete turn-key design-to-installation service.”

Interactive Design/ Real time Videoconferencing

Large, high definition screens throughout the showroom feature newly arrived furnishings and objets d’art. Via state of the art technology linked to iPads, designers and their clients can view their selections in virtual room settings to scale, and even have real-time conferences with their architect or builder.

Color, Pizzazz, Fabulous Brands

Customers are raving over the use of color, sparkle and fun pieces throughout the new Clive Daniel showroom. Vignettes showcase a wide diversity, from island casual to Las Vegas pizzazz. Lily Pulitzer fans love the iconic Lily pink and green tones on sofas, chairs, and pillows, objets d’art, and even a hot pink crystal chandelier.

For traditional tastes, there’s plenty to choose from, including Baker, Ralph Lauren, Hickory Chair, and Lillian August galleries. Other lines include Hancock & Moore, EJ Victor, Vanguard, Nautica, Hickory White, Barclay Butera, Thayer Coggin, Caracole, Stanley Summer Classics and Skyline Outdoor.

Community Involvement

Clive Daniel Home is committed to its involvement in the communities it serves, particularly in the areas of the visual and performing arts, women’s and children’s health and safety, opening its facilities to many non-profit programs and fundraisers throughout the year.
