- INSTANT INFORMATION—with faceted search
- BETTER COLLABORATION—with embedded communication tools
- WORKFLOW OPTIMIZATION—with familiar, intuitive navigation

# Launch Feedback

**iCONNECT's XERA is much more than just a pretty face - but it is very pretty**

"An interface designed for the Facebook and LinkedIn generation but which nevertheless conveys business-like efficiency is just what we need. **XERA** has all that and more. The expression "to raise the bar" is much over-used, and probably belongs with "unique" and "revolutionary" in the marketer's verbal dustbin, but I am willing to use it this once - **XERA** will raise the bar for user-friendly application interfaces in eDiscovery."

*Chris Dale – eDisclosure Project*

# Launch Feedback

"Instant collaboration has become an ubiquitous business tool that fosters efficiency," *said Vivian Tero, Program Director for GRC infrastructure at IDC.* "By integrating collaboration into its platform, XERA provides today's legal and compliance teams with an intuitive communications tool."
