## What do you like about our services?

The attitude of your movers is absolutely contagious. The can-do feeling one gets from your crew is quite refreshing and the friendly outgoing nature of the crew in today's work place is remarkable.

## What do you like about our services?

I felt fully informed, start to finish. Everyone from my initial visit to your site to the final move was helpful, friendly, & pleasant. The two guys doing the packing and moving were "GREAT" in every way! They were much better than the tip i was able to give at this time, for sure.

## What do you like about our services?

I appreciate that the quality of service is a top priority and that you encourage young Last name removed to get a positive work experience by being staff in a high quality total moving/storage service organization that serves the public well. I appreciate the calls prior to the move to ascertain the readiness for the packer/movers to begin work. I appreciate the referrals to other outside services that have made my move smoother. I do recommend your company especially since it is a local company committed to supporting the community in positive ways.

## What do you like about our services?

We like the friendly, courteous people that we have encountered...Princess Packers- Adam and Christina, Katie, and Jen at the Storage facility. The storage facility is very clean and having the security that it offers makes us feel that our "storage unit" is secure. Next, we have our move and we certainly would like to have Adam be a part of it. Thank you for putting a smile on our move !!!
