CDMA PRO

GPS Fleet Tracker

The CDMA PRO operates on the Verizon Cellular Network to offer fleet managers a cost-effective system to improve dispatching and fleet efficiency. With views of vehicle location, speed, heading, stop data, and more, fleet managers can adjust routing to minimize response times, increasing fuel economy and overall productivity.

Fleet tracking also provides a reliable solution for mobile workforce management by improving driver accountability. Eliminate unauthorized stops, inefficient routes, speeding and excessive idling. The CDMA PRO is the ideal solution for managing all your fleet tracking needs!

BENEFITS

INCREASE	Productivity Fuel Economy Accountability	Driver Safety Anti-Theft Protection Fleet Efficiency
REDUCE	Response Time Travel Time Idling Time Mileage	Speeding Unauthorized Stops Transportation Costs Insurance Costs

FEATURES

CDMA PRO features include 3D motion detection, a tamper alert system, ignition on alert, and geo-fence boundary crossing alerts - all working together to improve security and safety for drivers and assets. Five available inputs and outputs allow for customization of triggered events like Remote Door Lock/Unlock, Ignition Start/Stop, and SMS/Email notification alerts.

MAPPING

Operating on the Verizon Cellular Network, the CDMA PRO provides consistently accurate location data for all your vehicle tracking!
