

Enhance Your Teachers' Use of Movies in the Classroom!

Take positive steps to improve the use of film in your school!

The first step in controlling the use of movies by teachers in classrooms is to give them the tools to make watching a movie a meaningful educational experience.

Giving educational value through a film involves:

- Choosing a film that relates to the curriculum;
- A well thought out introduction;
- A movie worksheet to keep the class focused;
- Discussion after the movie; and
- Appropriate assignments.

All focused on meeting curriculum goals.
