DDC Clinic ~ Center for Special Needs Children is a non-profit primary care and research facility serving patients with complex medical needs. Located in Middlefield, Ohio, DDC Clinic has been recognized internationally for its state of the art genetic research - impacting broad based health concerns such as heart disease, cancer and neurological disorders.

DDC Clinic provides medical services for patients with over 70 different rare conditions. The Clinic was founded on the 'medical home' concept defined by the American Academy of Pediatrics and the principle that no child would ever be turned away from the medical care he or she needs based on the family's ability to pay.

DDC Clinic Champions Award

This inaugural award will be presented to two distinguished individuals for their exemplary dedication, generosity and volunteer service to DDC Clinic.

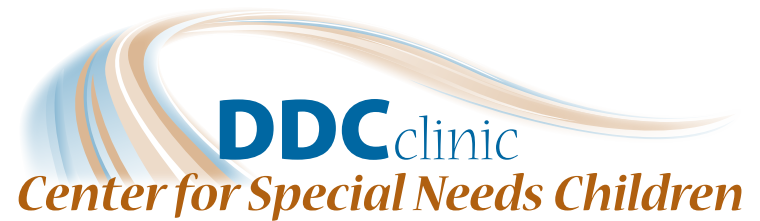

2012 Recipients

Gordon Safran

Retired CEO and President of E.B. Brown (Optical and hearing aids) in 1996, and long time community leader, Gordon joined the DDC Clinic board in 2001, and has truly been a pillar of our organization's success. Gordon used his business savvy to guide and inspire the DDC Clinic's strategy and mission. The philanthropic generosity of Gordon's endless network of friends was critical in our achieving the many benchmarks we have to date. He was instrumental in finding our first DDC Clinic location and was the co-chair in the capital campaign that built the state-of-the-art, gold level LEED award facility that we are in today. Gordon's enthusiasm for our mission, his tireless efforts in building and enhancing our capacity to do good, personal generosity, and love for the Amish community as well as for children and families with unmet health needs has helped to create the legacy of DDC Clinic. It is an honor and pleasure to continue to work with Gordon to support children with rare genetic disorders.

Chuck Fowler

CEO of Fairmount Minerals, and respected community leader, Chuck has truly made philanthropy an integral and primary aspect of his life. Chuck joined DDC Clinic's board in 2006 and has impacted our mission in very significant ways. Fully engaged in our vision, Chuck has gone above and beyond the call of duty on many occasions to help DDC Clinic achieve our goals. As a successful businessman as well as a well known philanthropist, Chuck utilizes his expertise and connections to provide guidance and support. Chuck is always making connections with other community leaders and to see how we can work together to help those with unmet health needs. As co-chair of our recent capital campaign, his vision and leadership helped us achieve a GOLD level LEED award. Chuck and Char's personal generosity made them our initial members of DDC Clinic's "Double Helix Community" of donors of \$1 million or more to DDC Clinic. We are truly blessed and privileged to have Chuck Fowler as a Champion for DDC Clinic.

Enhancing the quality of life for people with special needs caused by rare genetic disorders.
