LIDO BEACH RESORT TAKES SARASOTA DINING “OVER THE TOP”

Located on the exclusive Lido Key, this Sarasota beach resort lets guests discover a new meaning of “surf and turf” dining with its new beach restaurant options.

Sarasota, FL – Don’t settle for an a la carte experience: the new Sarasota dining package at the Lido Beach Resort combines great food, a unique dining setting and spectacular views that pleases all the senses.

The new “[Over the Top & Down in the Sand](#)” dining experience at the Lido Beach Resort puts guests right on the waterfront. A talented team of sand artists carve a customized setting into the beach, sinking a table into the sand and creating an intimate atmosphere for groups between two and eight people. If guests so desire, the setting can be customized to fit any theme or occasion.

Combining the best parts of beach dining and luxury, the Over the Top dining package is an unforgettable treat, perfect for proposals, a unique Sarasota dining experience, family gatherings, and even business dinners. Even the most important client will be amazed by the stunning sunset and savor the beachfront views as well as the menu.

This [Sarasota dining package](#) includes a sweeping five course menu that captures the essence of surf and turf unlike any other beach restaurant. Executive Chef Matt Lewis has prepared delicious appetizers to get the taste buds stirring, followed by a refreshing salad course and an intermezzo. And, of course, it wouldn’t be a true beach restaurant experience without a surf and turf plate. Finally, the meal ends with a round of desserts, although guests can linger and feast their eyes on the sparkling golden beach as the day ends. Perfectly paired wines accentuate the flavors of each course.
