

Is your *playground surface prehistoric?*

It's time for Playground Xtreme!

eliminates **STATIC**

Static Block is a revolutionary technology engineered into the fiber reducing static build-up on the playground surface.

resists **GERMS**

Microban® antimicrobial technology is infused into the infill for an added level of protection against bacteria, mold and mildew that can cause stains, odors and product deterioration.

reflects **HEAT**

Heat block technology reduces the amount of heat that can be absorbed into the turf blades by up to 17.5° F.

Playground Xtreme by XGrass is ADA compliant, requires very little maintenance and is IPEMA certified for safety.

Contact us today for a **worry free solution** on your *playground.*
