

CLINOVO CDISC SERVICES

Clinical information tends to be more complex, comes from multiple sources in different formats. As a result, clinical data submission has become time-consuming, costly and error-prone.

CDISC® (Clinical Data Interchange Standards Consortium) established a the new data standards to speed up data-review and improve clinical data exchange, storage and archival.

Our technology edge combined to our experience in standards implementation allows us to develop tailored CDISC solutions that answer your needs.

CLINOVO CDISC SERVICES

- **CDISC conversion** from any clinical database
- **Advanced training** through webinars and face-to-face
- **Full Helpdesk support**
- **21 CFR Part 11** validation
