

# Are you ready for process **optimization** through people partnership?

Opteamix is a dynamic young Information Technology and Knowledge Services company. We believe when you optimize your resources and business processes, aligning it with company objectives, the future belongs to you.

We work with you to deliver excellence. We provide you competitive cost efficiency, optimal utilization of resources, and remarkable flexibility to meet the uncertain demands of the modern business world.

Long-term customer relationships built on partnership, respect and trust are our core values. Our experienced and trustworthy management & employees are committed to uphold high corporate governance standards and accountability with all stakeholders.

## Story behind our name

Optimization

Diversity

O P T E A M I X

Excellence

Derived from a powerful combination of words 'optimal, team and diversity', the name 'Opteamix' stands for delivering excellence through people capability and optimal processes.

Integral to our name, Opteamix is the dynamic team with deep expertise that ensures optimal business value to its clients.

Leveraging on our expertise and divergent industry vertical knowledge, we provide you with a wide range of energized Business Optimization services to meet your end-to-end business needs. Our portfolio of services includes:

### Application Development and Maintenance

Our exhaustive array of end-to-end application development solutions and maintenance services gratifies your organization's requirements and enables you to exceed competition and gain market share.

### Testing Services

Opteamix' extensive database of re-usable test assets translates into immediate profitability for you in terms of increased effectiveness and shorter time to market.

### Cloud Services

Opteamix will help you excel in cloud enablement by providing safe and dependable Software as a Service (SaaS) solutions.

### Mobile Solutions

Opteamix is dedicated to help you in capitalizing on the potential of mobile technologies by offering services like conceptualization, development and implementation of enterprise mobile solutions.

### Analytics and Business Intelligence

Opteamix' Analytics & Business Intelligence team offers you a structured, robust and agile study which includes statistics, prognostic analytics, data mining, forecasting, and optimization.

### Business Optimization Consulting

Opteamix' Business Optimization Consulting services are designed to help you achieve significant progress swiftly by fine-tuning the processes encompassing your critical business workflows.

### Enterprise Solutions

Opteamix can help you select and implement the right Enterprise solution that follows your pace of growth, adjusts to your unique workflow, adapts to your database and deployment preferences, and aligns with your organizational structure.

### Strategic Process Outsourcing

Opteamix enables you to support the core functions of your business with robust Business Process (BPO) and Knowledge Process Outsourcing (KPO) solutions.

### Remote Infrastructure Management

Opteamix Remote Infrastructure Management Services helps you handle risks and check costs by reducing the total cost of ownership, ensuring quick deployment, standardizing support processes and thus letting you focus on your core competencies.
