

MOLDED ASSEMBLIES FOR BOTH WELDING AND TEMPORARY POWER APPLICATIONS

FEATURES AND BENEFITS

- SUPER-TREX® Weld Cable – RHH/RHW Single Conductor Power**
 First line defense against oils, ozone and UV exposure as well as most chemicals. Extreme all weather flexibility. Proven performance lasts up to 8 times longer than standard weld cables.*
- Completely Molded Design**
 All rubber construction reduces cable stress and provides an environmental seal between the cable and the connector head.
- Mated Connection Provides a Cork and Bottle Seal**
 Forms a water, oil and dust resistant seal, protects the connection from contamination.
- Quick Disconnect**
 $\frac{3}{4}$ turn quick disconnect system, provides a secure connection. Compatible with both Series 16 Taper Nose and Series 18 Ball Nose.
- Sized for up to 750 MCM Cables**
 Designed to meet your application needs for both welding and temporary power.

APPLICATIONS

- Commercial and Navy shipbuilding and repair sites
- Ship to shore power
- Welding ground cables
- Motor and generator applications
- Construction sites
- Utility applications
- Mining applications
- Temporary power for concerts, carnivals, conventions, theme parks, etc.

MOLDED HEAD COLORS

| ● Yellow (Standard) | ● Blue |
| ● Black | ● Green |
| ● Red | ● Brown |
| ○ White | ● Orange |

*Data available for customer use

LOCKING

- Safety latching to prevent unintended disconnection
- Tested to meet Navy specifications
- Completely interchangeable with existing connectors
- Type W 2000V portable extra hard usage
- Pull tested to 2000 lbs
- IP69K rated
- Rated up to 690 amps

BALL NOSE

- Mates with any series 18, E1018, Standard Series or ball nose style plugs for welding applications
- Available using #2, 2/0 and 4/0

TAPER NOSE

- Mates with any series 16, E1016, J Series or taper nose style plugs for welding applications
- Available using #2, 2/0 and 4/0
