Portland-Based ISM Among Top 100 Sage ERP VARs in 2012

ISM earns a spot on Bob Scott's 2012 'Top 100 VAR' listing of ERP, Accounting, CRM, and business software providers for the 5th consecutive year.

Portland, OR – May 15, 2012 – Information Systems Management (ISM) (www.goism.com), a Sage Authorized Partner specializing in Sage 100 ERP, Sage 300 ERP, Sage 500 ERP, Sage ERP X3, and Sage CRM, has again been named to Bob Scott's annual 'Top 100 VAR' listing for the 5th consecutive year. Selected and compiled by industry analyst and mid-market financial software expert Bob Scott, the list ranks the top 100 value added resellers (VARs) of ERP and accounting software in the United States based on revenue.

Each year, thousands of ERP and accounting software providers are considered for a spot on the prestigious list. And with the recent popularity of cloud-based accounting software products, the addition of the higher priced Sage ERP X3 to product portfolios, and a slew of company acquisitions resulting in larger combined organizations, competition amongst VARs was much stronger this year than in the past.

Having earned a spot on Bob Scott's Top 100 VAR list for the 5th year in a row, BJ O'Reilly of ISM states, "There have been a lot of changes within the Sage channel and the accounting software industry as a whole. I'm proud of our team for adapting to change and continuing to deliver top-notch technology solutions and customer service." O'Reilly adds, "By embracing new technologies, adding strategic products, and offering new services, ISM has continued to experience growth year-after-year."

With offices in Portland, San Diego, Phoenix, Northern California, and Virginia, ISM provides accounting and ERP software, implementation, training, and support for Sage 100 ERP (formerly Sage ERP MAS 90 and 200), Sage 300 ERP (formerly Sage ERP Accpac), Sage 500 ERP (formerly Sage ERP MAS 500), Sage ERP X3, and Sage CRM Solutions. The company is also a multiple recipient of numerous national awards for its work as a Sage Authorized Partner.

About Information Systems Management (ISM)

ISM began as a small business with one vision in mind: “Simple answers to difficult questions.” Their goal was to convert complex technology into tangible business value so their clients get more work accomplished using fewer resources. Keeping that same vision in mind, today ISM has grown to become one of the top Sage resellers and business technology providers in the country.

Their diverse professional staff is uniquely qualified to support all major areas of business technology including Customer Relationship Management (CRM), Accounting and operations (ERP), and Human Resource Management and Payroll (HRMS). They also implement the most widely-used business and accounting software applications on the market including Sage ERP Accpac, Sage ERP MAS 90, Sage ERP MAS 500, SageCRM, Sage CRM SalesLogix, ACT! by Sage, and Sage FAS Fixed Assets.
