

SALES INTELLIGENCE REPORTS *for the energy industry supply chain*

Tracking Capital Projects for the Energy Supply Chain

Project Insiders offers a suite of **40 Sales Intelligence Reports** detailing information on future and active North American Energy Construction Projects including key contacts on the projects. Our research team is currently tracking over **\$800 Billion in projects** across all sectors of the Energy Industry from Upstream, Midstream, Downstream to LNG, including areas such as offshore, oil sands and unconventional.

These reports will lead you to **more projects and more contacts** within the energy industry, creating more sales opportunities for your products and services. Instead of spending time finding and qualifying leads we sort through the noise and provide you with actionable information so your sales and marketing team can spend their time selling and not researching.

HOW IT WILL CHANGE YOUR BUSINESS?

- Find more projects and more contacts
- Create more sales opportunities for your products & services
- Spend time finding & qualifying leads...NOT researching
- Know what projects are reaching new funding stages
- A single source of current and actionable information

WHO NEEDS PROJECT INSIDER'S SALES INTELLIGENCE REPORTS?

- EPC, Construction & Engineering Firms
- Production Equipment & Processing Skid Providers
- Marine Equipment & Services
- Consultants, Recruiters & Project Services
- Specialized IT Hardware/Software Providers
