

Vasectomy Reversal Success **Vasectomy Reversal Success Stories**

Vasectomy Reversal Success Stories In case you are not familiar with **Vasectomy Reversalist Dr. Turek** and his work, you might be interested what other people have to say about him. There are many online sources of review boards, where you can research his reputation as vasectomy reversal specialist. Here is what some people who had a vasectomy reversal by Dr. Turek said:

Reversal with Dr. Turek After 14 Years and One Failed Reversal

"I do not usually write a review but with **Dr. Turek** I felt I had to. I have a unique situation and wanted others to know what a great find Dr. Turek is. I had my original **Vasectomy** over 14 years ago and 12 months ago I had a **Vasectomy reversal that had failed!**

Then I was lucky enough to find Dr. Turek. **Simply put he is THE BEST.** When I think of a doctor I want someone who is good at what he does and well bedside manner is second but not with Dr. Turek. From the moment you meet him (and his awesome staff of Judi de Guzman and Paula Chavez) **he makes you feel at ease and gives you confidence** not with fancy words or throwing out some nation wide success numbers. But Confidence because you know when you walk out of his office he is the best. **He**

shows you HIS results and what HE has done. Not what the Urology community as whole has done. In other words he stands on his own work and his own results.

He is world renown and one look at what I call his "wall of fame" and you know you have the right doctor! He is State of the art from the look of his offices to the exam rooms. Dr. Turek is cutting edge in all aspects of his practice and abilities! Being that this was going to be a "Re-Do" for me I was feeling worried that it might not work out for me and my wife. But this is where the Technical expertise of Dr. Turek comes in. I completely understood the procedure I was going to have and had NO questions and was completely at ease. After my surgery Dr Turek took the time to talk to my wife and answer all her questions.

That is the thing with Dr. Turek he takes the time. When he is with you, you feel like his only patient because he gives you 100% of his time and attention, I felt almost no discomfort from my procedure and I felt completely taken care of by the entire staff at all times. Today I had my first analysis and true to his excellent skills **I now am ready to have babies!** I found that Dr. Turek's pricing was in line with everyone else but his skill level is the top of the chart! Do not waste time seeing someone else. Or try to cut corners. In the end it is your body and you may not get a second chance so go with the best. If your goal is to have a baby the only one other than Dr. Turek better at making that happen is God!"

Update:

Well since that time my wife and I were able to get pregnant and had a very healthy Baby Girl! After trying for only ONE MONTH!!! After we had our daughter. Now My wife and I were able to get pregnant again! and again after only trying for one month! So this is why I am adding to my last review!

I had heard after the reversal it was possible that scar tissue could build up and block the sperm after time. Well I guess you can say that with Dr. Turek he not only performs miracles His miracles continue to keep giving! My wife and I are expecting a baby in April!

There truly are no words to describe how incredible Paul Turek really is. He is amazing and if you want a family your very best opportunity to have this dream is with Dr. Paul Turek!!! What he brings to your life is just that.... LIFE!"

Vasectomy Reversal Superstar Doctor

"Dr. Turek is a superstar as everyone knows and the office is simply stunning. You won't get better care than you get at this facility. The place has a very intimate and personal feel that I think reflects his personality. He obviously loves what he does and it shows in his work.

I would highly recommend him and his staff."

Amazing Urologist

"I have been in the medical field for quite a few years & was blown away by Dr. Turek. He did a **vasectomy reversal** on my husband & not only are we pregnant 5 weeks after surgery, he was truly wonderful from the get go!! We did quite a bit of research before finding him & were beyond impressed by **his resume** and the number of times **he was published!** However, we had not decided if we were going to use him or not until we met with him.

He is EXTREMELY personable, friendly & makes you feel SO SO comfortable! He spent ample amounts of time with us and we never once felt rushed.

I would absolutely recommend him to anyone and everyone who is looking for a great, skilled, friendly, wonderful, awesome, amazzzing urologist!!!

Blessings,
Kimberly"

A Consult Worth Your Time

"I went to see **Dr. Turek** about reversing a **10+ year old vasectomy**. We sat down and pored through data. We examined **costs** and **risks** of the procedure. We looked at data for the last several years. He showed me **success rates** and **failure rates**, and regression analysis showing the factors that affected success rate.

Then we compared these same factors to my own medical history and proceeded with the surgery.

The process was exactly as he said it would be, and all my decision-making was done with reams of medical data in front of me. The **research** he's compiled and published on **success rates** would be true of almost any other doctor I might have chosen to see. But Dr. Turek took the time to go through it all, explain all the terms to me, and never made me feel rushed.

He's about as well published an expert in the field of male fertility as you might find, and an incredibly nice person as well. Even if you go for an initial consult (which I did first) before you make any decisions, it's well worth your time."

[Update: we got pregnant within eight weeks]

[Update2: We have a beautiful 1 year old baby girl as a result of Dr. Turek work.]
