# LED Perimeter Lighting

## The CAST LED Perimeter Lighting System™

### *New Low-Cost Approach to Security*

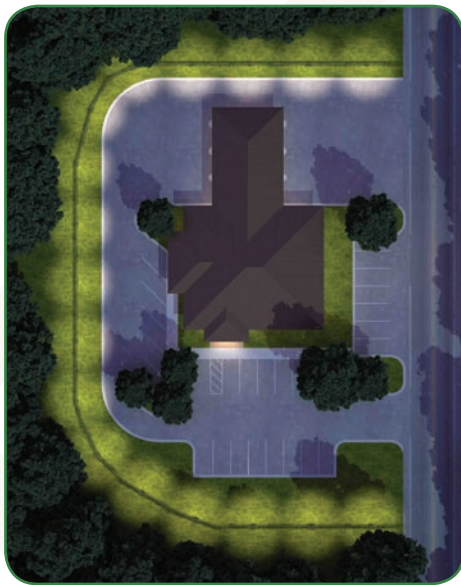

*“The combination of low-wattage LED’s and extremely wide voltage range allow lighting runs up to 500 ft. per low-voltage wire.”*

#### **Description:**

A low-voltage security lighting system comprised of rugged LED fixtures and a reliable power supply. Mounted on fence posts, these lights are simple and quick to install and consume a fraction of the energy of traditional security lighting. Can also be used in any lighting application where long wire runs are required (such as wooded paths and piers).

#### **Perimeter Light Features:**

- ▶ Rapid return-on-investment - can replace high-wattage flood lights
- ▶ Provides no-glare lighting for security cameras and guards
- ▶ Each fixture pole-mounted with 2-bolt saddle-clamp and built-in junction box designed to illuminate a 30-ft. section of fence.
- ▶ Outdoor White Cree LED’s with a predicted life of 60,000 hours (15 years).
- ▶ All components protected from dust and moisture - impervious to physical damage. Unbreakable cast metal construction.
- ▶ Low-voltage eliminates risk of electric shock.
- ▶ Extremely wide input voltage range - from 8 to 24 volts.
- ▶ A single 24v wire-run powers 17 lights to illuminate 500 ft. of fence for less than \$40 per year energy cost.
- ▶ Dark-sky compliant - full-cutoff fixtures do not contribute to light pollution and light trespass.

CPL1

CPT200

200-Watt, 24-Volt Transformer to Illuminate 500 ft. of Fence. Built-in Timer, Photocell Option.
