

What is Tripbnb?

Tripbnb is 'The World's Most Social Way to Travel'. At Tripbnb we offer the opportunity to selectively choose accommodations based on activities, interests and hobbies instead of just pools, restaurants and games rooms. Tripbnb recognises the need for a modern travel website where people of all ages and backgrounds can come together and find travel accommodation compatible with personal specifications and budgets. By integrating a social media element, Tripbnb has created a socially interactive environment where users and suppliers can identify with particular interest groups and network with each other. Tripbnb provides the social arena whereby users can find accommodation that suits them and suppliers can target certain users which would normally be hard to achieve. Accommodation choices will no longer be left to chance; travellers can make better decisions by using Tripbnb.

What does Tripbnb offer?

Tripbnb provides a social tourism market place where travellers can locate accommodation incorporating an interest or experience and be welcomed by suppliers who are eager to attract users of this category. Tripbnb incorporates a unique social networking element to make it easy to connect with suppliers and other travellers who share a common interest and encourages use of your friend network to scope out or promote our outstanding accommodations. These accommodations are a handpicked selection of the world's best small and mid-sized accommodations (normally no more than 60 rooms), including private villas, private host accommodations and even boat charters, all of which cater to specific interest groups. All of our hotels provide breakfast and our other accommodations provide amenities to fry up your own eggs, to ensure that you get off to a good start whatever your day may bring!

How does Tripbnb work?

Tripbnb takes you where you want to be, to do what you want to do, plus we give you breakfast too!

The Tripbnb concept works using lifestyle groups. Our website encourages accommodation suppliers and travellers to sign up and create an online profile which they can link to popular social media networks. They assign a number of interest groups that they wish to belong to, allowing users access to interest compatible accommodation and other people who share their passion and allowing suppliers to cater directly for specific user groups and target them online. For example, an avid surfer can stay in a surf friendly accommodation, near the

beach, providing surf board rental and meet other surf enthusiasts to ride the waves with because this supplier joined the surf group.

Slick

Tripbnb is designed to be convenient at every step. The initial sign up is simple and quick and because the profile is linked to a social network profile, the verification process is seamless. Our fantastic web site design makes it simple to navigate around and explore the accommodations on offer. There are online calendars displaying each accommodation's availability and an onsite messaging system to allow ease of communication between suppliers and users. We even have an instant booking option in some cases which means the reservation is instantly confirmed so you can start looking forward to your trip immediately! No other website has such a comprehensive guide to the array of accommodations that exist to meet the needs of enthusiasts. Tripbnb takes the hassle out of searching for such accommodations by doing the hard work for you.

Secure

At Tripbnb we want to ensure that our users and our suppliers feel secure using our service and have installed numerous features to allow you to arrange accommodation within a safe environment. All users are required to create a profile which is then verified using a popular social media network to validate their identity. All photographs used on the site are also verified meaning that someone has confirmed that they are the person or accommodation they claim to be. All our accommodations are carefully selected to ensure they meet the rigorous standards required to feature on Tripbnb and this will be verified by other users, some of whom you will know directly or through your networks on social media. We allow users and suppliers to gather references to improve their profiles and we also have a bi-directional review system where both users and suppliers can review each other for other users' benefits. The whole booking process between user and supplier occurs via an online messaging system providing a paper trail that our customer service team can reference should any issues arise. There is also a flagging system where users can discreetly alert the customer service team of any concerns. Payment is not released to the supplier until 24 hours after check-in to ensure that the accommodation meets the expectations of the user. Tripbnb customers deserve the ultimate peace of mind.

Social

Tripbnb is 'The World's Most Social Way to Travel'. Tripbnb is based on the concept of using groups of people who share a common interest or hobby to categorize accommodations. We believe that staying in a user friendly accommodation and being in the company of others who share your passion is what makes a trip. Also all our accommodations are under 60 rooms allowing more opportunity for travellers to get acquainted with one another and provides a much more personal experience for each traveller. However our social aspect begins even before your trip as we require your Tripbnb profile to be connected to a social network community. This allows our users and suppliers to network with others of similar interests and also to see how they are connected within the community. Our filters will show places your friends have reviewed and connections to other users and

accommodation suppliers through direct friends, mutual friends and organisational affiliations.

Why use Tripbnb?

Tripbnb is the obvious choice for customers looking to travel and stay in accommodations that cater directly for their leisure interests. Our concept is innovative and exciting and Tripbnb knows what its clients need. The Tripbnb team are a group of meticulously selected savvy travellers from all over the world with years of experience of traversing the globe to explore our passions, ranging from surfing to sampling local cuisine. We understand that when you really love something, it impacts everything you do, especially travel and staying in an accommodation that encourages this and sharing your experiences with similar people will enhance your time away no end!

Our team are confident in our ability to meet the needs of our users because we share the users' enthusiasm for a pursuit of interests and are aware of what is required to achieve this. We believe in our product because we have experienced the benefits of our product first hand. Our faith in our service provides assurance for our customers and offers a starting point towards developing long term relationships and trust. Our unparalleled service and our slick, secure and social elements propel Tripbnb way beyond any other travel website. From the first click of your mouse to arriving back in your house, Tripbnb really is 'The Most Social Way to Travel'.
