CYMPHONIX®

K-12 Cloud Map

" **The vast majority of K-12 institutions are using some form of cloud technology,** though most don't seem to know it. In fact, only 27% of schools identified their institutions as cloud adopters. But a full 87% reported that their institutions use one or more technologies that are based in the cloud.* "

Today's K-12 network environment depends on The Cloud. And The Cloud's performance depends on your Internet connection. If you've invested in cloud solutions like these, you'll want to consider investing in Internet Management.

Education Solutions
- *LMS:* moodle · Bb Blackboard · Sakai
- *State Testing:* 46 of 50 states' testing is online

Courseware & Learning Content
YouTube FOR SCHOOLS · TED · BrainPOP · Discovery EDUCATION · e2020 education2020 · PEARSON

Desktop & Devices
Apple · ANDROID · Microsoft Windows

Your School

End User or Consumer
Dropbox · iCloud · EVERNOTE · Google

Collaboration
Adobe · flickr · Bb Blackboard Apps for Education · Google · PREZI · facebook · skype · In-House Wikis · ZOHO Work. Online

Business Processes
- *Accounting:* Quicken · SAP · Microsoft Dynamics NAV · sage
- *Content & Document Management:* SAP · Bb Blackboard · Google Apps for Education
- *BPM:* ORACLE · IBM · Microsoft BizTalk Server
- *Student Information Systems:* follett HIGHER EDUCATION GROUP · SUNGARD · PEARSON
