

[HTC Canada](#) Announces the Release of Much Awaited Ice Cream Sandwich Update for Two Smartphones in Conjunction with Bell Canada, Reports Ontario Based Market Research Company.

[HTC Canada](#) has just announced that the Ice Cream Sandwich update is now available with Bell Canada for the handsets Sensation 4G and Raider 4G LTE, as per a market survey report published recently by Internet Marketing Services. The report also suggests that the update would be available for most other HTC handsets within the next two months.

All users of [HTC Canada](#) Smartphones would very soon receive the Ice Cream Sandwich update for their handsets, according to Internet Market Services. The Ontario based market survey and research company have also reported that the update has just been made available with Bell Canada for the handsets Sensation 4G and Raider 4G LTE. Internet Marketing Services is well known as a leading market research company that keeps the consumers updated regarding the latest developments pertaining to different popular products. The handset users receiving this Android 4.0 update would be able to enjoy tons of new features on their existing handsets.

According to the report, [HTC Canada](#) would soon introduce this update for most of their handsets excepting HTC's Android Tablets like Honeycomb, Jetstream, Eco View 4G, and Flyer. The update would also be missed by the users of HTC's budget handsets like Salsa, ChaCha, Explorer, WildfireS, etc. Internet Marketing Services reveals that the Ice Cream Sandwich update will provide new features including an excellent typeface named Roboto. Flexible stock widgets in Ice Cream Sandwich can be resized, and the app drawer has dedicated space for them. With this update, the users would now be able to take screenshots simply by holding the volume and power button.

The new update also has serious enhancements for the camera including time lapse modes, panorama, face detection, better autofocus, image stabilization, and instant upload facility to Google+. The report from Internet Marketing Services has informed that the users of the two specified [HTC Canada](#) handset users can download the file from the settings section of their handsets. The announcement of this update is certainly great news for users of HTC handsets in Canada as the Ice Cream Sandwich update is all set to revolutionize the user experience for the Android users.

About Internet Marketing Services: Internet Marketing Services is a private market research company that conducts market research on various topics. The company is based out of Ontario.
