

On May 24th, 2012 SolarNexus will be graduating from its Beta version to full release. On this date, we'll be rolling out four new editions to replace the two editions that are currently offered, along with some new features.

SolarNexus will offer a free version of the software, called SolarNexus Lead Manager™. We will also offer three new editions: SolarNexus Sales Pro™, SolarNexus Project Pro™ and SolarNexus All Pro™.

Description of Editions

SolarNexus Lead Manager™

Capture, qualify & manage leads, and easily record vital site survey data.

SolarNexus Sales Pro™

The solar industry's most professional and accurate cost estimation and sales document tools. Manage your sales team and get detailed status updates.

SolarNexus Project Pro™

For companies that need an efficient way to track job progress and assign tasks. Maintain lead and project data past the installation for efficient operations and service.

SolarNexus All Pro™

The best of what SolarNexus has to offer. Use SolarNexus as your primary place to manage your clients and projects – from lead through installation and beyond.
