

# AccessPoint 2012

AccessPoint<sup>®</sup>, by Freeland Systems, is the most complete digital package of networking solutions in the market. Our solutions include a cloud computing platform that facilitates HIPAA compliant image, reporting and archiving solutions.

## SEAMLESS Workflow

AccessPoint 2012 gives you integrated access to other Freeland Systems products. This allows you to extend the functionality of AccessPoint and customize your solution.

### AccessPoint BacPac™

A convenient and inexpensive device independent solution for comprehensive PACS and/or EMR data capture.

### AccessPoint cPac™

Gain cloud functionality built on the Amazon S3 hosting platform; supporting HIPAA compliant image, reporting, and archiving solutions.

### AccessPoint mPac™

Mobilize image and reporting data by monitoring available data and downloading to selectable locations for review by authorized personnel.
