### **A gift basket of Fine Texas Spirits:**

(1) Rebecca Creek Fine Texas Spirit

Whiskey is whiskey distilled in San Antonio Texas and is a one-of-a-kind smooth-sipping whiskey that can be enjoyed straight or mixed. Produced from a proprietary blend of domestic malted barley and naturally limestone-filtered water, it is distilled in small batches in a traditional copper pot still and matured in charred oak for maximum taste profiles. Rebecca Creek Fine Texas Spirit Whiskey was released to stores 10/17/2011!

(2) Handcrafted in small batches with pure, naturally limestone-filtered water from the Trinity Aquifer, [Enchanted Rock Vodka](#) is an artisan-produced vodka that transcends all other vodkas with its clarity and smooth finish. Inspired by its iconic Texas Hill Country namesake, it's the foundation of any vodka cocktail. Enchanted Rock Vodka is smooth enough to be savored on its own, thanks to our traditional copper pot distillation process. One sip and you'll agree – Enchanted Rock Vodka is the true Texas vodka experience.

Pre-cut, easily assembled softwood knife kit. Naturally, we named it Nathan's Knife Kit in his honor. Not only is it an easy first woodworking project, but it is an excellent way to acquaint children, seven years of age and older, with the fundamentals of knife safety and responsibility. The kit is slightly oversized for easy assembly by young hands, and comes with complete instructions and knife safety education tips. Depending on the skill of the child, the knife can be assembled from the bag by press fit, or it can be sanded, glued, sealed, stained, painted and decorated as desired. This things ROCK!

Survival Straps are stylish bracelets & gear that can help you survive whatever life throws at you. They are worn around the world as a fashion statement, but also as a symbol of strength, honor, survival, and the greatness of American production. They are made in America from super strong military spec paracord which gives them a secondary purpose. In an emergency situation, unravel the bracelet to deploy the paracord to help get you out of a jam. If you do use it in an emergency situation, send us your story, and we will send you a new one, free of charge.

Smith's 8" Diamond Tri-Hone Sharpening System offers comes with two interrupted surface diamond stones and a Medium Arkansas stone. The Coarse and Fine grit diamond stones feature a unique, overlapping hole design that speeds sharpening by collecting and holding the metal filings which build up during the sharpening process, thus allowing the stone's surface to remain clean and clear. The Natural Arkansas Stone is best used for finishing your edge. It removes moderate amounts of metal as it polishes the cutting edge. This 3-stone sharpening system is excellent for sharpening pocket knives, hunting & fishing knives, kitchen knives, and tools of all sizes, large or small.

\$64.95 Kershaw Salvo Knife features a 3 1/4" drop point blade made of Sandvik 14C28N stainless steel. The blade has a matte finish and dual thumb studs for ambidextrous one hand opening. The contoured stainless steel handle, 4 3/8" closed, has a notched thumb rest and black Trac-Tec inlays for secure grip, a frame lock and a lanyard hole.

\$64.95 Kershaw 1735TST Zing Tanto has a Sandvik 14C28N stainless steel blade that is partially serrated so you get the best of both worlds. The handle is textured injection mold for great gripping power. There is a flipper on the back of the knife that allows you to deploy the blade fast even though the Kershaw Zing is not an assisted opening knife. For a little slower opening you can use the ambidextrous thumb studs mounted on the blade.

\$52.99 Kershaw OD-1 has a hard 14C28N stainless steel blade that is known for its great edge retention. The handle is very unique because one side is G-10 overlay while the other side is 410 stainless steel. A frame lock holds the blade open on the stainless steel side of the handle. The pocket clip can be mounted to carry the knife tip-up or tip-down. Now here is something else that is cool. A flipper on the back of the knife opens the knife and conceals itself when the blade is open.
