In today's world, credit affects virtually every financial decision made.

Lenders, insurers, service providers, government agencies and even potential employers, may obtain your credit report to assess how you manage your financial responsibilities.

Your credit report may be the determining factor in the decision they make about you, and your credit score is a number they will use to help them decide.

Credit Score Factors

- Credit Payment History 35%
- Outstanding Debt 30%
- Length of Credit History 15%
- Credit Mix 10%
- Search for New Credit 10%

DMCC can show you step-by-step how to increase your credit score with its Credit Score Analysis program. For only \$49, a DMCC Certified Credit Counselor will provide you a written analysis of your credit report and the specific steps

you can take to increase your credit score.

*Provided FREE to DMCC Debt Management Plan clients after six consecutive months on program.

Most

importantly, our counselors are able to simulate various changes to your credit report that you are actually able to make, providing you a custom plan of action.

This service is designed to complement the free credit reports that you are entitled to obtain each year from the three major credit bureaus, which do not include your credit scores.
