Society for Melanoma Research 2012 Congress

MARK YOUR CALENDAR TODAY

THE 2012 CONGRESS
November 8-11, 2012

Hollywood, CA

LOEWS HOLLYWOOD HOTEL

The Society for Melanoma Research 2012 Congress

is a global congress that unites melanoma clinicians and researchers to focus on multidisciplinary management of melanoma/skin cancer. It provides key insight into the practical advantages of multidisciplinary care of patients with cutaneous malignancies. This is the leading meeting for cutting edge data in melanoma with **over 700 healthcare professionals** in attendance including researchers, medical oncologists, dermatologists, dermatopathologists and surgical oncologists.

WHO WE ARE

The **Society for Melanoma Research** and **Prova Education** have partnered to provide quality oncology education and to enhance the distribution of emerging data. The Society for Melanoma Research is a diverse organization of scientific and medical investigators devoted to alleviating the suffering of patients with melanoma. Prova Education, a leading medical education company with expertise in oncology, leverages the extensive knowledge of clinical experts who understand how to close gaps in knowledge, competence, and performance. Together, their strengths in oncology education create value for learners nationwide.
