SECOND OPINION
FOR PATIENTS

METISMD™ – AN ACCURATE, EXPERT
SECOND OPINION FOR PEACE OF MIND.

Radiologic scans can be complicated and hard to understand, yet the information within them is critical in making an informed decision about your care and treatment options. Knowing more can help you make better decisions. That's why MetisMD offers Connected RadiologySM – a distinct and comprehensive, personalized approach to radiologic secondary reviews that empower patients like you. Our expertise lies in the caliber of our U.S. board-certified physicians, each with over 10+ years of experience in the field available to you 24/7. With online service, your second opinion is faster and more economical and convenient than an office visit. That's Connected RadiologySM and it's only available at www.metismd.com.

All MetisMD radiologists are:

U.S. board-certified and fellowship-trained physicians • highly respected specialists with at least ten years of experience • published within their field of expertise • based in the U.S.

**WHAT IS METISMD'S
CONNECTED RADIOLOGY?**

MetisMD's Connected RadiologySM is a unique menu of healthcare solutions to help patients and their healthcare team easily manage and assess their radiologic scans for efficient and effective outcomes. We've created an easy to use website with around-the-clock access to credentialed radiology specialists who provide thorough assessments and detailed reports of all radiologic exams including MRI, CT, X-ray, Ultrasound, Mammogram and nuclear medicine.

**3 SIMPLE STEPS TO YOUR ONLINE
SECOND OPINION**

In a simple 3-step process you can securely upload radiologic exams for prompt, professional interpretation.

1. Register Online at www.MetisMD.com
2. Upload Exam
3. Receive Report

With Connected RadiologySM you'll receive your second opinion report within 24-48 hours. With our expedited service, you could have your report in less than 12 hours.

Subspecialties:

**Neuroradiology • Orthopedic/
Musculoskeletal • Body Imaging
(ultrasound, CT, body MRI) • Pediatric
Radiology • Women's Imaging (breast
and gynecologic imaging) • Vascular
and Interventional Radiology • Nuclear
Medicine**

Connected RadiologySM Options for Your Confidence

Get individual attention and personalized care – a key component of our unique menu of services below:

MetisMD PatientConnect: Empower yourself with a second opinion on your existing radiology exam. MetisMD provides an in-depth written report of our findings and comparison to previous radiology exams. Our Image Quality Score lets you know if the scan was performed correctly or if technical limitations warrant a repeat scan or additional tests (See www.metismd.com/qualityscore). Your MetisMD radiologist can easily and securely share his or her computer screen with you, explaining and pointing out the findings in real time. And with any read, MetisMD offers an optional phone consultation.

MetisMD ReportReview: If you're confused about what your original report might say or mean, a MetisMD radiologist will go over your primary report with you, taking time to explain terminology and discuss the findings *(This service does not include reviewing or re-reviewing images and is only for purposes of helping to clarify your original report).

MetisMD CloudConnect: Store your radiology scans on our secure cloud-based image vault, making it easier for you to access, manage and share your radiology online with other healthcare professionals. We offer a complimentary 1-year subscription to all PatientConnect customers. This service allows around-the-clock access to your images via any online computer or iPad/tablet device.

MetisMD ReferralConnect: If you need a referral to an imaging center near your location, submit your request online at www.metismd.com. Additionally, you can also request a referral to a medical provider in other specialties. This service is limited to specific locations – get more information online at www.metismd.com.

MetisMD GlobalConnect: MetisMD radiologists can read radiology exams from anywhere in the world. Should you need your radiology report translated into another language, we offer translation services.

MetisMD VIPConnect: If you're a patient with multiple scans and would like access to a variety of services through MetisMD, we offer an annual subscription for second opinions on all your radiologic scans. Get more information online at www.metismd.com.
